EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Watkins on 3/16/05.

The application has been amended as follows:

Claims 24-47 have been cancelled.

This application contains claims directed to using different "therapeutic material(s)." The uses of the different materials are patentably distinct species of the claimed invention.

Applicant was required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant elected (without traverse) the method wherein the material was BMA and authorized the cancellation of claims 24-47 drawn to non-elected inventions.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1651
